

ACHS CLINICAL INDICATORS FIRST HALF 2023

Gold Stars

Every 6 months, the Australian Council on Healthcare Standards (ACHS) benchmarks our data against similar hospitals nation wide. Our comparison group is 'large hospitals without an ICU'.

The results are in and we have received **20** gold stars in areas where we have performed above and beyond the national benchmark. **Well done everyone!**

Pre-anaesthesia consultation completed by anaesthetist

Number of events: 11247
Expected No. of Events: 11587

Unplanned stay in recovery room

Number of events: 13
Expected No. of Events: 267

Booked patients who fail to arrive

Number of events: 8
